

The [World Rec Gambling Poker Tournament](#) is an annual email based poker tournament started by users of the [USENET](#) group rec.gambling.poker and has been running since 1992.

The purpose of this application is to assist players in playing this game by obtaining data on other players, thus making them able to better understand their opponents, thus giving them a playing advantage.

The app continually collect hand histories, processing the observed playing action and placing the data into an SQL database. A secondary use will be

Players access the data by using a deployed Streamlit app to generate reports.
